

CAPITAL PROJECT VOTE

NOVEMBER 29, 2023 12 p.m. - 8 p.m.

What is this vote for?

Broome-Tioga BOCES is conducting a public vote seeking approval to update critical building infrastructure and construct additional space for student programs and operations.

Why is a capital project needed?

Critical Infrastructure – The main Education Center building on BOCES Glenwood Road Campus was built in 1972. The electrical, heating/cooling, and health & safety systems are in desperate need of repair and/or replacement. Renovations to classrooms to support the diverse needs of over 2000 students that attend BOCES programs daily from all school districts in the region.

Classroom Space - Simply put, BOCES is out of classroom space. Programs continue to grow and there is no place to put students. There are student waiting lists today and enrollment in BOCES programs is projected to increase 17% in the next 10 years. This includes our Special Education programs and Career and Technical Education (CTE) programs (such as Heavy Equipment, Automotive, Electrical, Carpentry, Welding, Cosmetology, Hospitality, etc.).

How will this be funded?

The project will be funded through three (3) sources:

- **NYS Grant Funds**
- **BOCES Annual Operating Budget**
- **NYS Dormitory Authority Bond (DASNY)***

*DASNY Bond is projected at \$40 Million. BOCES would make payments on this bond over a 20-year period. 63% of the annual payment will be aided by the state and 37% of the annual payment will be funded by the school districts (noted above) based on their enrollment as specified by NYS Education Law.
