# IT Specialist

## Program highlights

- Work side-by-side with information technology professionals, observing and participating in authentic experiences
- Explore the fundamentals of technical support, including network construction and maintenance, operating systems, system administration and infrastructure, and security
- Learn about roles such as service desk, field service operations, infrastructure operations, data and application support, and project and resource management

## Step ahead to college

All career and technical courses have articulation agreements or opportunities for concurrent credits with post-secondary institutions and/or unions.

## College choices

These schools, along with many others, offer programs in the information technology field.

- SUNY Broome
- SUNY Delhi
- SUNY Cobleskill
- SUNY Morrisville
- SUNY Canton

## High school academic credit

This course has received program approval through the New York State Education Department, enabling students to earn one unit of integrated and/or specialized English language arts, math and/or science credit.

## Step ahead to a promising career

Students who successfully complete this program are prepared for the workforce. Here are a few examples of jobs awaiting successful students:

- IT Assistant
- PC/LAN Technician
- Software Support Specialist
- Systems Training Assistant
- Computer Programmer
- Network Specialist
